CROWNING GLORY EXTENSION

Antoine Bauza

MATERIAL

- 6 Bonus cards

SET UP

At the start of the game, shuffle the 6 cards and place them face down in the centre of the table.

HOW IT WORKS

Now, when a player completes a firework (i.e. he puts a «5» value card down to finish a sequence), he reveals one of the Bonus cards (still face down) instead of adding a blue token, and he immediately puts the card to use. The card

DESCRIPTION OF THE CARDS:

• Additional clue (x2 cards)

The current player add a blue token to the lid for free.

Important information:

- if all the tokens are already available, the advantage is lost.
- this bonus applies to the regular rules of the basic game.

• Recycling (x2 cards)

The current player takes a card from the discarded pile, puts it back in the pack and shuffles.

Important information:

- the current player chooses the card that he wants to return to the pile but he shows it to his teammates before putting it back in the pack and shuffling.
- if there are no cards left in the pile (so it is the last turn of the game), the current player immediately starts a new turn but he does not return the card to the pack.

• Super clue (x1 card)

The current player can immediately give a complete description of any of another partner's cards: he points to the selected card and announces the colour AND the value of the card.

Important information:

- Sharing the super clue is free, it does not cost the player a token.

• Short fuse (x1 card)

The current player can immediately and voluntarily add to the lid 0, 1 or 2 red tokens and add just as many blue token(s).

Important information:

- The game is lost with 3 red tokens. The player can only take a maximum of 2 tokens.
