

Mini animated teasers

EXPORT

The following mini-teaser are available from Cocktail Games:

Content

The packaged folder include the AE file, the sources of the graphics used in the files and the sound files. Fonts are the same than in the games artworks, make sure they are installed (*additional info can be found in the folder txt file*).

There might be some licensing fees regarding the use of the music.

Language

The text in the file is in english. The translation was for working purpose only, please review and amend before publishing.

Voice-over

Delete the voice-over composition to replace it with your own (or none).

Programs

All the teaser are made in After Effect.

Download and install After Effect Plugin: <https://misterhorse.com/animation-composer>

(make sure this is done prior to opening the file, if the plugin is not installed, none of the effects will work)
