

1

At any time, a bomb disposal expert cuts a teammate's wire saying it is **red**. The bomb explodes if it is not red.

2

4 bomb disposal experts
successively cut
EVEN numbers.

3

The uncut wires on a tile stand
only make up groups of 2 wires
(separated by cut wires).

4

The sum of the 3 first
Validation tokens used
equals 18.

5

2 bomb disposal experts
successively perform
the **Solo cut action**.

6

At least 5 uncut wires on a tile stand are isolated (the neighboring wires are cut).

7

3 bomb disposal experts
successively cut
consecutive values
(either up or down).

Examples: 8, 9, 10 or 5, 4, 3.

8

The first 2 **Validation** tokens
are placed
on the following numbers:

← Put 2 **Number**
cards face up
HERE →

9

A tile stand only has uncut **ODD** wires (a minimum of 6 wires).
Ignore the red and yellow wires.

10

At least 7 wires from a tile stand
have been cut, but the 2 wires
on each end have not.
